Quick Start Guide

- To make sure we use the product correctly and safely,please read this instruction carefully before installation.
- Apply to 43-65 inch IFP by suggestion.
- Max bearing weight is 30KG.

Material List

A-Base 1pc

B-Column 1pc

C-Wall mount 1pc

D-Fixed plate 1pc

E-Adjustable clamp 1pc

F-Brackets 2pcs

Accessories list

	Screw	M6×10mm	3pcs	Including spare part 1pc
	Screw	M4×16mm	5pcs	Including spare part 1pc
	Screw(Imperial)	M6×10mm	3pcs	Including spare part 1pc
	Screw	M4×8mm	4pcs	Including spare part 1pc
	Washer	Ø6	3pcs	Including spare part 1pc
	Nut	M6	3pcs	Including spare part 1pc
	Screw	M6×45mm	3pcs	Including spare part 2pcs
	Wrench	1set		13#·10# L4#

Other Accessories

	Plastic	wire clip	6pcs	
	Polyester	velcro	6pcs-short	2pcs-long

1

Assembly Step

Step 1

Install the column on the base. (Figure 1)

Figure 1

Step 2

Rotate the product 90 degrees and place it on the table, then unscrew the hand-screwed screw and take out the lower cover.(Figure 2)

Figure 2

Step 3

Install the fixed plate on the wall - mounted board,And tighten the adjustment clamp. (Figure 3)

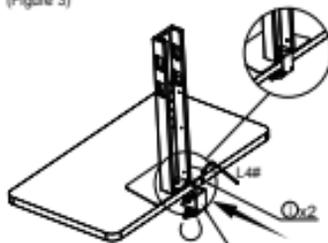

Figure 3

Step 4

Remove the left and right rear covers on the back of the wall mount.(Figure 4)

Figure 4

2

Step 5

Adjust the bracket to the lowest point, install the fixing plate and bar.(Figure 5)
Note: Bar is provided by the user.

Figure 5

Step 6

Install the Brackets on the IFP.(Figure 6)

Figure 6

Provide by IFP

Fx2

**Step 7**

Install the wall mount to the column and tighten the thumb screws. The bar can be installed on the top of the wall mount or on the bottom of the wall mount, as shown in the following two states.(Figure 7)

hole a
hole b
hole c

x2

hole a—Suitable for 65" IFP
hole b—Suitable for 55" IFP
hole c—Suitable for 43" IFP
Make sure the screws are tight

In this state, you need to unscrew the hand screws of the camera bracket, turn the long bracket 180° and tighten them, adjust the long bracket to the lowest point, and then install the bar.
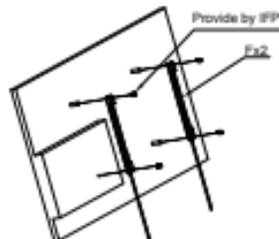

Figure 7

Step 8

Hang the IFP on the wall mount. The groove of the wall mount is the assembly position. After installation, make sure that the bottom latch bracket is locked into place. (Figure 8)

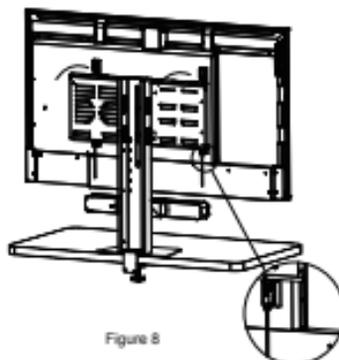

Figure 8

Step 9

Use Velcro to attach PC, power socket, adapter and other devices to the wall mount. (Figure 9)

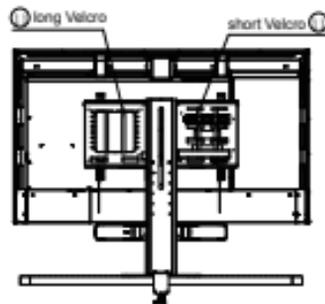

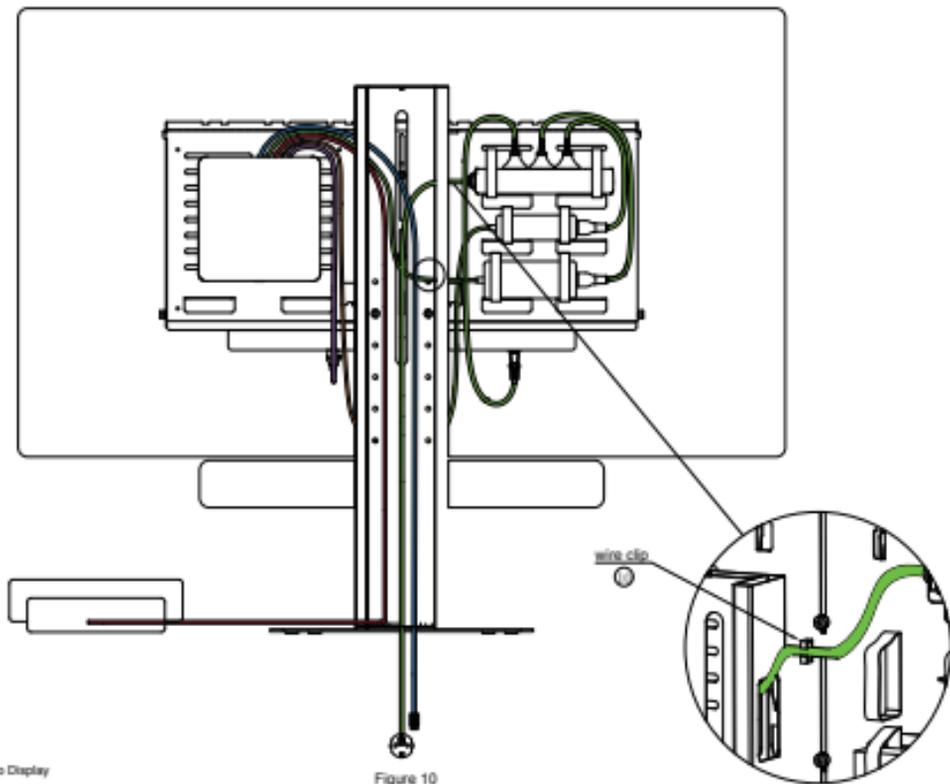

long Velcro   short Velcro

Figure 13

Other Installation Options

Users can choose not to install the adjustment plate, but to make a large through hole on the table top, and then fix it to the table top with long screws and nuts. (Figure 14~16)
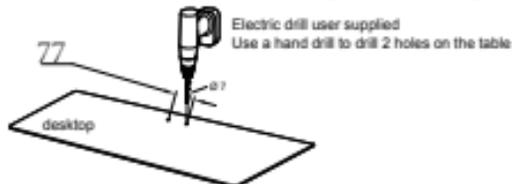

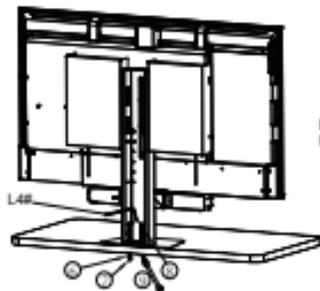

Electric drill user supplied
Use a hand drill to drill 2 holes on the table
