LIMITLESS
VERSATILITY

Limitless, Versatile Display Solution

The CommBox Intelligent Display is your all-in-one, high-quality, and reliable non-touch solution designed to meet the dynamic demands of retail, business, and education. This cutting-edge, non-touch display seamlessly integrates a brilliant display with intelligent functionality, transforming any space into a dynamic hub of productivity. Plus, it delivers immersive, engaging signage, making it a versatile and exceptional display.

Elevate any space with the CommBox Intelligent Display

Designed in Australia, this state-of-the-art device sets a new standard in visual and auditory excellence.

Powered by CommBox OS: Intuitive Control at Your Fingertips

CommBox OS built on Android 11, offers a feature-rich operating system:

- CommBox Store
- Browser
- Media Player
- CommBox Connect
- CommBox Manage

Crystal-Clear + Anti-glare Display:

An immersive and exceptional 4K screen with brilliant 450 nits brightness and clarity promises impeccable visuals. Paired with anti-glare technology that minimises reflections, it ensures your content shines through, whether in portrait or landscape mode.

Landscape 16:9

Perfect for meeting rooms paired with Microsoft Teams Rooms or Zoom Rooms, great as a classroom screen.

Tough and robust, stronger than a TV.

Available in: 43", 55", 65", 75", 86", 98"

Powerful and Clear Sound

Powered by x2 built-in 15W speakers, the Intelligent Display delivers rich, clear, and immersive sound, ensuring that every word, note, or sound effect is heard with impeccable clarity. Whether it's a classroom setting or a corporate meeting room, the Intelligent Display guarantees that the message is both seen and heard.

From Landscape to Portrait in Seconds

Portrait 9:16

Transform any space with CommBox Intelligent Displays, with the option to mount in portrait. Create incredible digital signage for retail applications such as menu boards or wayfinding. Communicate with your team in office spaces, and inform students and parents in school foyers and hallways. The options are limitless with CommBox Signage. Curate engaging displays that captivate customers, boost sales, and enhance overall experiences. Creating digital signage and pushing it live takes less than 3 minutes, making it simple and easy to use.

Powerful and Reliable Display for Teaching, Presentation, Collaboration and Signage

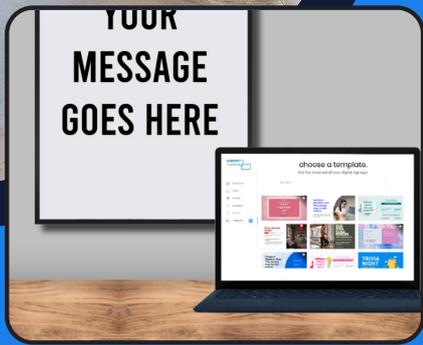

The CommBox Intelligent Display is equipped with leading-edge technology, allowing you to meet, collaborate, teach, and present content effortlessly. An innovative multi-purpose screen that revolutionizes communication and offers high quality and reliability, ensuring productive and engaging experiences in any setting.

Perfect for Meeting Rooms

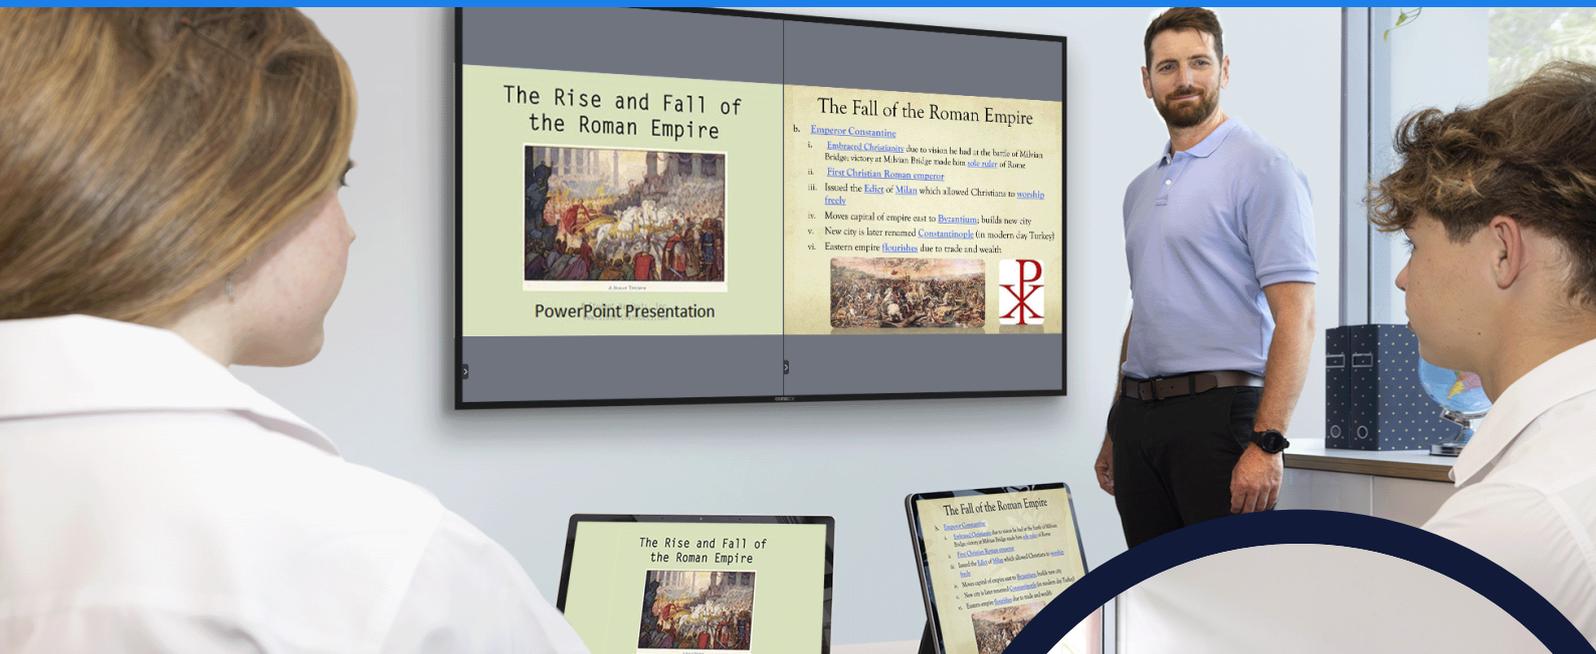

The CommBox Intelligent Display has been tested with the world's leading UC vendors. The Intelligent Display is agnostic and works perfectly with Microsoft Teams Rooms and Zoom Rooms devices.

Immersive Digital Signage

Creating impactful and immersive digital signage that connects and informs your audience is easy with the Intelligent Display and CommBox Signage. The Intelligent Display is designed to operate for extended hours needed for signage displays. Getting started with CommBox Signage takes less than 5 minutes, and sending content to the screens from anywhere is easy and painless. With options to mount in portrait and landscape, you can meet every signage need within your business or school using the same signage display. Manage the screens remotely with CommBox Manage to improve power consumption and longevity. Already have a digital signage platform? It's easy to add the Intelligent Display to this platform with the signage player or Android application.

Powerful Screensharing

CommBox Connect is a feature-rich, secure screen-sharing application that enables users to share their screens in real-time with others across various devices and platforms. CommBox Connect supports native protocols like Miracast, AirPlay, and Chromecast, as well as providing additional features in the CommBox Connect app for your personal device.

CommBox Applications

- CommBox OS
- CommBox Signage
- CommBox Manage
- CommBox Connect

Lightweight

- Super thin bezel

The CommBox Experience

At CommBox, we believe that the experience is just as important as the product itself. That's why we offer the CommBox Experience, an unparalleled level of care and support that sets us apart from other screens.

The CommBox support team is available to help you every step of the way, providing expert training, guidance and troubleshooting whenever you need it. We even guarantee a same-day response if you get in touch before 3 PM AEST. Plus, with our 5-year warranty, you can rest easy knowing that your investment is protected.

We're committed to ensuring that you have the best possible experience with our products, and we're always here to help you get the most out of your screen.

Take advantage of the CommBox Experience by bringing all your display technology under the CommBox umbrella. Provide your users with a consistent screen UI experience to increase adoption and manage all your devices in one central location with CommBox Manage.
